

Jumping Animals

Making Guide

Step 1:

Make the head

Make a ball of foil or newspaper and tape and shape it into the shape of your animals head

Materials needed:

- Tape/Glue
- Scissors
- Split Pins
- String
- Cardboard Sheet
- Cardboard Tube
- Wooden Skewers
- Lollipop Stick
- Newspaper/Foil
- Decorative Bits

Step 2:

Create Legs

Cut out 3 ovals of cardboard for each back leg and 1 for each front leg

Split pin the ovals at the joints and where the legs attach to the body.

For extra stability in the back legs attach a lollipop stick between the toes

Step 4:

Handles

Insert a wooden skewer into the back of your puppets head and to the base of the body. Secure them in place with glue and tape to create handles for manipulating your puppet.

Step 5:

Decorate!

Using stickers, coloured paper, paint, beads etc decorate your puppet to give it the features of your chosen animal such as feathers, scales and fur.

Step 3: Attach Body

Tape string to the base of your head. Thread the string through your cardboard tube, taping it securely to one side at the top and bottom.
